- **Cloud Services:** Cloud Migration, Cloud Managed Services, Cloud Assessment/Strategy, Hybrid Cloud Solutions, Application Development
- **Hyper Automation:** Machine Learning (ML), Robotic Process Automation (RPA), API Integration
- **DOMA DX Software:** Electronic Content Management within the Cloud, SaaS platform developed and managed by an in-house team

DOMA Facts

- Pat Feliciano, the founder of DOMA Technologies, started his first company in 1991. His passion for serving others with technology eventually led him to found DOMA in 2000.
- DOMA was founded to solve the challenge of managing information in an increasingly digital world. DOMA offers end-to-end digital transformation solutions from backfile records scanning to the latest machine learning tools to help businesses dig deeper into their data.
- DOMA has over 20 years of experience delivering digital transformation solutions to federal agencies such as the United States Department of Veteran Affairs, the U.S. Navy, The Defense Health Agency, The U.S. Department of Homeland Security, and more.
- DOMA’s flagship federal program - PMR (Private Medical Records), serves the VA by expediting medical claims for veterans. The PMR program has served over 3.5 million veterans by reducing the time to complete a claim from 24 days to under 12.
- DOMA believes in giving back and serves the community by donating, fundraising and volunteering through the DOMA Gives program.
